CYBERSCAN ESSENTIALS

Our company will help your business stay protected in the world of evolving cyber threats.

lbmctech.com

Network security scanning is used to recognize available network services, discover and recognize any filtering systems in place, look at what operating systems are in use, and protect the network from attacks. It can also be used to determine the overall health of the network.

Our CyberScan Essentials identifies vulnerabilities such as weak passwords in network devices, including routers, servers, firewalls, and switches. Limited penetration testing is also conducted through network scanning without affecting the underlying system or network performance.

BENEFITS

1. Identify Your Company's Risk Level

The Consolidated Risk Report aggregates risk analysis from multiple assessments performed on the network, providing you with both a Consolidated Risk Score and a high-level overview of the health and security of the network.

2. Receive A Risk Summary

The report details the scan tasks undertaken to discover security issues. In addition to the overall Consolidated Risk Score, the report also presents separate impact scores for all areas of assessment.

3. Get A Security & Compliance Report Card

See a Network Summary and a Security Report Card Summary with a complete breakdown and evaluation of everything in and on your network as well as any and all security tools you are using.

You will also receive a Compliance Report Card Summary which includes items that are important baseline security-related settings in Microsoft Windows.

4. Identify Critical Vulnerabilities

See a complete breakdown of assets, vulnerabilities, active directory summaries, and an operating system breakdown with every vulnerability documented.

WHAT DO OUR PARTNERS SAY ABOUT US?

"SINCE WE PARTNERED WITH LBMC TECHNOLOGY SOLUTIONS, WE ARE ABLE TO FOCUS ON OUR GROWTH GOALS AND STRATEGY. WE KNOW THAT LBMC IS KEEPING AN EYE OUT FOR ANY POTENTIAL THREATS TO FLAG THEM AND ALERT OUR INTERNAL IT STAFF, AND IN THE EVENT WE WERE TO GET ATTACKED, WE KNOW THAT THEY WILL STEP IN AT A MOMENT'S NOTICE TO HELP PROTECT US AND FEND OFF THE ATTACK."

Rachel Hockenberger, CEO / CFO Parman Energy

5. Learn How To Secure Your Organization

Gain insights with an easy-to-understand vulnerability assessment that highlights the top 5 vulnerabilities and the top 5 missing patches. Use our easy-to-understand security scan to learn what tools or patches need updating.
